SUBJECT: Yield Sign – Village Green Parkway & Clayton Road

As you know, the intersection of Village Green Parkway and Clayton Road was improved as part of the Town & Country Crossing development. The lane configuration for the right turn out of Village Green is now under signal control. Due to this signal control, the existing yield sign on southbound Village Green Parkway sends a conflicting message to motorists. MoDOT has requested that we remove the yield sign.

We have reviewed the intersection, and agree that the sign should be removed. Since this sign is listed in our Traffic Code, the attached ordinance must be approved, which will remove the sign from the code and will authorize staff to remove the sign from the intersection.

Therefore, staff requests the **Planning & Public Works Committee to recommend approval of the attached ordinance which removes the yield sign located on southbound Village Green Parkway at Clayton Road from the Traffic Code, and to forward to City Council for their consideration.**

If you need additional information or have any questions please advise.
