Assistant Director of Planning Annessa McCaskill-Clay presented eight (8) exhibits supporting petition for a newly constructed home allowing height to exceed ordinance requirement by 15 feet. Mr. Schenberg stated that all other homes in subdivision exceed the ordinance requirement of 35 feet. He has obtained signatures from Subdivision Trustees approving the new construction without any issues. New construction is to be built for same architectural style and property size consistency within the subdivision. The original ordinance from 1988 was amended in 2003 regulating the tear down/rebuild of older homes for subdivision compatibility.

There were three (3) additional speakers present in favor of the petition.

There were no speakers present in opposition.

Board member Dru Thomas inquired about clarification of the hardship relating to the petitioner, and what other options are available in this instance.

Assistant Attorney Bob Heggie explained that this Board was created to hear and relieve petitioner of particular/specific zoning ordinance requirements. The Board considers character, look, and fit as it relates to the neighborhood. He further explained that there is no certain definition for hardship, and that this is left broad for the Board to act upon and consider.

Councilmember Jane Durrell pointed out that there is a conflicting requirement regarding the language of the site specific ordinance whereby there will be a modification to make it more compatible to the subdivision. Planning & Zoning will possibly be looking at modifying the ordinance to make less conflicting.

Laura Lueking makes a motion to grant request based on the neighborhood.

The voice vote was as follows: Laura Lueking, yes; Dru Thomas, yes; Richard Morris, yes; Gerald Schwalbe, yes; Robert Tucker, yes.
