Chair Report:

◆ Planter Design

The committee discussed the design of the planters and decided a group trip to a greenhouse where the city has an account would be the best way to accomplish this project. The committee will communicate through email to confirm a date in the near future.

Mindy Mohrman will take pictures of the planter/basket locations and send them to the committee to give them an idea of what would work best.

The committee will work with staff to get the planters put together and to form a maintenance schedule.

◆ Beautification Awards

Selections need to be made by the May meeting.

Staff Report:

- ◆ Staff is working on reforestation projects around the amphitheatre site. The city will be receiving free trees from Forest Releaf.
