Bill No. 1647 (amends Code of Ordinances regarding the name change from Chesterfield Village Parkway North and South to Chesterfield Parkway East and West), Bill No. 1648 (amends Code of Ordinances regarding the name change from Roosevelt Parkway to Swingley Ridge Road) and Bill No. 1654 (authorizes City Administrator to sign an agreement for transfer of the contract for solid waste collection from BFI to Allied Waste) will all be read for the first time under the Legislation portion of the agenda.

Councilmember Flachsbart next reported that the Chesterfield Citizens for the Environment Committee (CCE) recommends that the City Council accept the proposal submitted by Patrick Engineering, in the amount of \$24,985, to provide consulting services to initiate recycling activities in multi-family developments. Grant funds obtained by City Staff through the Solid Waste Management District will cover this expense, with the exception of in-kind services which will be provided by the volunteers from CCE. A motion was made by Councilmember Flachsbart, seconded by Councilmember Casey, to authorize the City Administrator to sign a contract with Patrick Engineering, in the amount of \$24,985 for consulting services. A voice vote was taken with a unanimous affirmative result and the motion was declared passed.

Councilmember Flachsbart next reported that the Committee approved Rockwood School

District's proposal to install a gazebo-style pavilion at the Chesterfield Elementary Park site. This approval is contingent upon review and approval of the plans that will be submitted by the District, indicating location and final design of the gazebo.

Councilmember Flachsbart next reported that the Committee recommends that City Council approve Staff's recommendation that construction of the sand volleyball court be delayed until other areas of the park are developed and that an alternative, more appropriate location be established. A motion was made by Councilmember Flachsbart, seconded by Councilmember Streeter, to approve Staff's recommendation to move the sand volleyball court when other areas of the park have been developed. Councilmember Flachsbart next reported that the Committee recommends approval from City Council on the following policy recommendations developed by the Public Works Citizens Advisory Group:

1. Required information for the submission of plot plans. Plot Plan Review checklist is attached to the minutes.
2. All new streets, where curbs are required, be constructed with integral vertical curbing, in lieu of roll curbing.
3. All sidewalks shall be a minimum of four feet wide. However, wider sidewalk widths will be required on high volume streets and at locations adjacent to obstructions.
4. For those specific instances where the Fire District requires a 32-foot wide street due to singular ingress and egress, a seven (7) foot separation between the sidewalk and curb shall be required and the right-of-way shall be a minimum of 56 feet wide.
5. The Department of Public Works staff shall assist property owners with streambank erosion problems in the following manner:
  - **Meetings** – an engineer will initially meet with residents as concerns are reported; providing (1) flowchart depicting the permitting process, (2) identify agencies involved, and (3) a standard package of manufacturers literature of erosion control products.
  - **Brochure** - a standard brochure to explain erosion control issues shall be distributed from the Public Works department as requested and needed. The brochure will explain erosion control issues, define responsibilities, and identify the negative consequences associated with individual efforts.
  - **Articles** – periodic articles shall be prepared for the Citizen newsletter to assist and direct residents with these problems.

This involves no new appropriations. A motion was made by Councilmember Flachsbart, seconded by Councilmember Sheppard, to approve the Public Works Department's request as stated above.
