The Committee voted unanimously to recommend that City Council approve use of the total General Fund expenditures, including capital expenditures and debt service on the City Hall and Public Works facility to calculate the fund reserve level. The actual percentage will remain unchanged, but the actual dollars set aside will increase, since the percentage will be applied to a larger number. Councilmember Durrell made a motion, seconded by Councilmember Brown, to use the total General Fund expenditures, including capital expenditures and debt service on the City Hall and Public Works facility, to calculate the fund reserve level. A voice vote was taken with a unanimous affirmative result and the motion was declared passed.

Councilmember Durrell made a motion, seconded by Councilmember Flachsbart, to modify the existing policy on the use of the City's letterhead to include "logo," as well, and to add "City Administrator," in addition to the Committee liaison, for the review of the request. ### **Public Works/Parks Committee**

A voice vote was taken with a unanimous affirmative result and the motion was declared passed.

Mr. Herring next reported that bids were recently sought for repair of storm sewer joints, using an internal epoxy process. Based upon the information submitted by Assistant Director of Public Works/Assistant City Engineer Brian McGownd, Mr. Herring joined with him in recommending an award of a contract to Walden Associated Technologies. He noted that the FY 2002 Budget provides \$129,600 for unspecified storm water projects. This firm will be used, at the hourly rates quoted within their bid, on an as-needed basis. The project was not undertaken nor completed during FY 2001. As a result, all funds for said project lapsed and reverted to Fund Reserves. Therefore, it is the recommendation of Mr. Herring that those funds be re-allocated from Fund Reserves to the current budget to cover the total expense for this project. If City Council approves the recommendation, it will be necessary to approve awarding of a contract to Sunrise Construction, Inc., in an amount not to exceed \$75,000 for repairs to the Timberlake Manor Parkway Bridge and to transfer \$75,000 from Fund Reserves to cover this expense. Councilmember Casey made a motion, seconded by Councilmember Hurt, to award the bid to Sunrise Construction, Inc., in an amount not to exceed \$75,000 for repairs, to the Timberlake Manor Parkway Bridge, and to transfer \$75,000 from Fund Reserves to cover this expense. These firms performed video investigations and actual repairs, respectively, during FY 2001 and have agreed to extend those contracts for all of FY 2002, at the same pricing bid during 2001. As a result, based upon the recommendations made by the Public Works/Parks Committee, Mr. Herring recommended that contracts with both Bi-State Utilities Company and Tope, Inc., be extended for a one-year period, at 2001 contract prices. He further noted that these contracts are funded entirely by the sewer lateral repair program.
