Mr. Herring next reported that bids were recently sought for the scheduled replacement of a ten (10) year old wheel alignment system, utilized by the Fleet Maintenance Division. Based upon a review of the information provided by Public Works Director/City Engineer Brian McGownd, Mr. Herring joined with him in recommending award of a contract to Automotive Technology, Inc., for the purchase of this system, at a total purchase price of \$23,227.79, including trade-in. Councilmember Flachsbart made a motion, seconded by Councilmember Casey, to award a contract to NuWay, at a total purchase price of \$21,239. A voice vote was taken with a unanimous affirmative result and the motion was declared passed.

Mr. Herring next reported that bids were recently sought for another "PHASE TWO" project at the CVAC, consisting of landscaping and lighting for the recently-constructed east parking lot, located just north of the new Parks Maintenance Building. Based upon a review of the information provided by Public Works Director/City Engineer Brian McGownd, Mr. Herring joined with him in recommending award of a contract to Frederich Construction Company, in an amount not to exceed \$240,560. This project is fully-funded by Phase Two Parks bonds, authorized during 2008, by City Council. Councilmember Flachsbart made a motion, seconded by Councilmember Fults, to award a contract to Frederich Construction Company, in an amount not to exceed \$240,560. Mr. Herring next reported that bids were recently sought for the design and reconstruction of Stablestone/Greentrails Drive North, between Ladue Road and Olive Blvd. Mr. Herring stated that funding for the required "local match" was included within

the FY2009 Budget. Based upon a review of the information provided by Public Works Director/City Engineer Brian McGownd, Mr. Herring joined with him in recommending award of a contract to J.M. Marschuetz Construction Company, in an amount not to exceed \$1,550,000. The FY2009 Capital Improvement Sales Tax Budget contains \$1,740,000 for this project and assumes that the City will be reimbursed for approximately \$1,085,000, of the \$1,550,000. As a result, the actual cost to the City will be approximately \$465,000. Councilmember Flachsbart made a motion, seconded by Councilmember Segal, to award a contract to J.M. Based upon a review of the information provided by Public Works Director/City Engineer Brian McGownd, Mr. Herring joined with him in recommending award of a contract to Oates & Associates, in an amount not to exceed \$86,723.46, related to this project. With grant funds covering 70%, or approximately \$60,706, the City's actual cost will only be approximately \$26,017. Councilmember Flachsbart made a motion, seconded by Councilmember Segal, to award a contract to Oates & Associates, in an amount not to exceed \$86,723.46. A voice vote was taken with a unanimous affirmative result and the motion was declared passed.

The anticipated annual expense associated with this contract is \$10,000 and this amount is fully-funded within the Capital Improvement Sales Tax Fund. In conjunction with the Stablestone/Greentrails Drive North project, an addendum to the above-noted bid was also sought, for the replacement of approximately 314 feet of 48" storm sewer pipe, under Greentrails Drive. Mr. Herring stated that this work actually needs to be completed prior to the start of the road reconstruction project. Having reviewed this addendum, Staff recommends award of a contract to Walden Associated Technologies, for this specific project, in an amount not to exceed \$52,995. Adequate funds exist within the Capital Improvement Sales Tax Fund budget to cover this entire expense. Councilmember Flachsbart made a motion, seconded by Councilmember Segal, to award a three-year contract to Walden Associated Technologies, estimated to cost approximately \$10,000/year, as described above and for this specific project, in an amount not to exceed \$52,995.
