Public Works/Parks

Councilmember Jade Gardner Bute, Chairperson of the Public Works/Parks Committee, reported that several members of the Home Builders Association attended the last meeting of her Committee and expressed their concern regarding the City's policies regarding concrete street pouring during the winter months. Councilmember Bute stated that the policy, as it stands now, is that no concrete street pours are allowed from November 15 through March 15. The Committee directed Staff to develop a recommendation pertaining to concrete pours in the winter months.

Councilmember Bute next reported that St. Louis County Department of Highways and Traffic has contacted the City of Chesterfield with a proposal to remove the following streets from the arterial road system: Appalachian Trail, Greentrails Drive North and South, Stablestone Drive and Timberlake Manor Parkway. Councilmember Bute noted that the County has the authority to declassify these from arterial streets which would result in the City accepting them as public streets.

Director of Public Works/City Engineer Bill Hawn has evaluated the street condition and found them to be in good condition. However, there are many sidewalk slabs that are not in compliance with City standards and a few storm sewer problems that will have to be addressed before the City of Chesterfield could accept these streets. The Committee unanimously recommended that the City enter into negotiations with St. Louis County to have these repairs completed before the acceptance of the streets.

Councilmember Bute next stated that Bill #'s 495 and 502 will be considered for adoption under the Legislation portion of the agenda.
