REPORT OF THE CITY ADMINISTRATOR

City Administrator Mike Herring reported that bids regarding dental insurance would be held, pending further discussion and review.

Mr. Herring next reported that bids were recently sought for cracksealing services throughout the City of Chesterfield. Based upon review of the information submitted, he joined with Director of Public Works/City Engineer Mike Geisel in recommending award of a contract to B & D Pavement Maintenance, in an amount not to exceed \$70,000. Mr. Geisel noted that the City of Chesterfield has successfully contracted with this firm in the past and sufficient dollars exist within the FY1999 Budget to cover this total expense. Councilmember Flachsbart made a motion, seconded by Councilmember Streeter, to award a contract to B & D Pavement Maintenance, in an amount not to exceed \$70,000. A voice vote was taken with a unanimous affirmative result and the motion was declared passed.

Mr. Herring next reported that bids were recently sought for a stormwater improvement project located adjacent to Summer Lake Drive, within the Baxter Village and Baxter Lakes Subdivisions. Having reviewed the information submitted, he joined with Mr. Geisel in award of a contract to Karsten Equipment Company, in an amount not to exceed \$75,000 for this project. Mr. Geisel acknowledged that this firm has never performed work on behalf of the City of Chesterfield previously; however, he and other members of Staff are familiar with this firm and are confident that they will complete the job. Mr. Geisel also noted that sufficient funds exist within the current FY1999 Budget to cover the total expense of this project. Councilmember Flachsbart made a motion, seconded by Councilmember Streeter, to award a contract to Karsten Equipment Company, in an amount not to exceed \$75,000 for this project. A voice vote was taken with an affirmative result (Councilmember Hurt was not present for the vote) and the motion was declared passed.

Mr. Herring next reported that bids were recently sought for the purchase and installation of an emergency generator at the Public Works Maintenance Facility. Having reviewed this information, he joined with Mr. Geisel in recommending award of a contract to the firm of TGP, Inc., in an amount not to exceed \$78,175. As noted by Mr. Geisel, adequate funds exist within the current budget to cover this total expense. Mr. Geisel further noted that, although the City of Chesterfield has not previously contracted with this firm, a check of their references has indicated their ability to perform this job. Councilmember Flachsbart made a motion, seconded by Councilmember Casey, to award of a contract to the firm of TGP, Inc., in an amount not to exceed \$78,175 for the emergency generator. Councilmember Hurt returned to the meeting and the voice vote was taken with a unanimous affirmative result and the motion was declared passed.

Mr. Herring next reported that Mr. Geisel has informed him that the Metropolitan St. Louis Sewer District (MSD) has approved a 50/50 grant request, for the year 2000, involving a stormwater project within the Bridle Creek Subdivision. Having reviewed this information, he joined with Mr. Geisel in recommending that City Council authorize him to sign the letter of intent to proceed with this project. Mr. Geisel noted that funds for the local match would come from the annual allocation for unspecified stormwater projects to be contained within the FY2000 Budget. Councilmember Flachsbart made a motion, seconded by Councilmember Casey, to authorize the City Administrator to sign the letter of intent to proceed with this project. A voice vote was taken with a unanimous affirmative result and the motion was declared passed.

Mr. Herring next reported that it is now necessary to amend the original contract between the City of Chesterfield and Gershenson Construction, for the Wilson Road project. The project amount needs to be officially increased by City Council from the original amount of \$629,445, to the amended amount of \$670,795. This additional amount would be funded entirely by a special cash escrow, paid to the City of Chesterfield by the developers of Sea Beauty Farms, for additional work on Wilson Road. This work was located adjacent to Sea Beauty Farms Subdivision. He noted that while the Director of Public Works/City Engineer is authorized to release and/or expend special escrow funds collected, it is necessary that City Council to officially approve amending the contract with Gershenson Construction, in order to enable payment to them of this additional \$41,350. This entire amount has already been collected from the developers of Sea Beauty Farms. Councilmember Tilley made a motion, seconded by Councilmember Flachsbart, to amend the contract with Gershenson Construction, in order to enable payment to them of this additional \$41,350. A voice vote was taken with a unanimous affirmative result and the motion was declared passed.
