The motion was seconded by Commissioner Kirchoff and passes by a voice vote of 8 to 0.

COMMITTEE REPORTS

- A. **Ordinance Review Committee - No Report**
- B. **Architectural Review Committee - No Report**
- C. **Site Plan/Landscape Committee**

Committee Chairman Kirchoff reported the following:

The fourth and final Landscape Guideline document (relating to Institutional Development) is presented here for Planning Commission **approval**. The marked-up copy was distributed at the last meeting for everyone to review. There were no negative comments.

Senior Planner Laura Griggs-McElhanon noted, in the past, the Guidelines have been **adopted** by the Planning Commission. They have already gone to the Planning and Zoning Committee of Council, in accordance with the policy of the Planning Commission. This is not something which requires a public hearing, since it is not approved by ordinance.

A motion to approve the "Landscape Guidelines for Institutional Development" dated May 1995, was made by Commissioner Kirchoff. The motion was seconded by Commissioner Broemmer.

Chairman McGuinness and several Commissioners stated it is a nice job.

Councilmember Levinson stated it is a wonderful document; however, the retention of existing vegetation needs to be looked at closely to prevent retention of scrub vegetation.

Commissioner Kirchoff stated it depends on the quality of the natural edges - if they are good quality natural edges, they are superior to newly developed landscape buffers - when they are not good quality they will either be rejuvenated or scrapped and started anew - review would be site specific.

The motion passes by a voice vote of 8 to 0.

D. Comprehensive Plan Committee

Senior Planner Laura Griggs-McElhanon noted the following:

Staff still needs to complete the information indicated at the last Commission Meeting (the Summary Document for the West Area Study Committee) by the end of the month. This will be distributed to Chairman McGuinness and the Co-Chairs of the Committee.

City Attorney Douglas Beach noted the following:

In discussions with Director Duepner and Planner II Joe Hanke, it is noted that there is a great deal of interest about putting billboard signs in the Chesterfield Valley. The Comprehensive Plan does not give a lot of consideration to where billboard signs would be appropriate along the major highways, or where they would **not** be appropriate along the major highways. As a consequence, we are faced with a number of potential sites (going on 24) along Highway 40, in the Valley. He requested the Comprehensive Plan Committee take-up and consider where billboard signs might be appropriate along Highway 40, since the Federal Government, through the State Government, tells us we need to have signs some place, and we need to identify where those sites would be.

Commissioner Broemmer asked whether this would be an exercise in futility, or is this a guideline which would be a **wish**, but not happen.

City Attorney Beach stated he couldn't say whether or not it could happen; but, without such an inquiry and serious consideration, we would go no place in a hurry. It is important for the City to consider that the law says that we may **not** outlaw billboard signs. We must, therefore, be in a position in which we can seriously consider where they would be appropriate and attempt to make an effort to identify the importance of those areas, aesthetics, etc. To not address this issue places us at a serious disadvantage.

Co-Chairs Domahidy and Dalton decided to meet tonight, after the meeting, to set a date/time for the Comprehensive Plan Committee to meet A.S.A.P.

E. Procedures and Planning Committee - No Report

Director Duepner noted he handed out a memo tonight regarding an issue discussed at the last meeting, and is seeking comments from the Commission relative to pursuing a Historical District or Historical Designation in the Old Town Chesterfield area.

No comments were added.

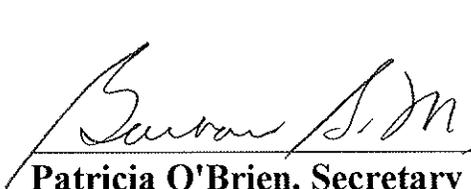

Councilmember Levinson noted it is his understanding that the Commission asked that Chairman McGuinness serve as the liaison, and a couple of members of the Planning Commission could also be part of the process.

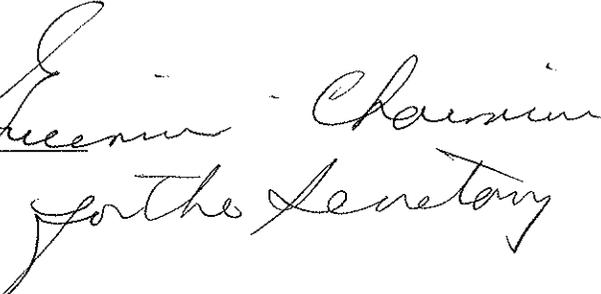

Chairman McGuinness noted they will get a team together to figure out the process, as reflected in the Minutes of the last Commission Meeting.

Senior Planner Laura Griggs-McElhanon noted, as requested, she has the plan for P.Z. 12 & 13-95, which was passed out to the Commission in their packets at the last meeting depicting the lot sizes.

A motion to adjourn was made by Commissioner Domahidy seconded by Commissioner Casey and **passes by a voice vote of 8 to 0.**

The meeting adjourned at 8:06 p.m.

Patricia O'Brien, Secretary

 - Chairman
for the Secretary [MIN5-8095]
