Assistant Director Laura Griggs-McElhanon presented the Department's report and recommendation for approval of the request, subject to conditions contained in Attachment A.

Commissioner O'Brien asked why we have a change in procedure for this petitioner (expediting the process).

Assistant Director Laura Griggs-McElhanon noted the City Administrator and Council directed the Department to expedite the process for this proposal. Based on that request the Department put together a time frame which calls for a special meeting of the Planning and Zoning Committee this Thursday, May 16, 1996, and then being forwarded to Council one (1) week from today, May 20, 1996.

Chairman Casey noted the U.S. Ice Sports Complex L.C. request tonight is definitely the exception, but the time line was necessary.

Commissioner Broemmer noted concern about setting a precedent which could open the door to more of these things.

Chairman Casey answered **no** to Commissioner Broemmer's concern, and said we can make sure it doesn't become a precedent.

Assistant Director Laura Griggs-McElhanon noted this topic is an item the Chairman requested we place on the agenda for the next Planning Commission Quarterly Meeting.

Councilmember Streeter asked why the petitioner originally requested 100,000 square feet.

Assistant Director Laura Griggs-McElhanon noted 100,000 square feet was originally requested, although the building shown and subsequently approved with the Site Development Plan was 76,320 square feet. She noted the petitioner had to expand the area of the Conditional Use Permit to accommodate the parking (parking is determined by the number of seats in the facility). In addition, the 100,000 square foot maximum gross floor area has to be increased to 110,000 square feet to accommodate the addition.

A motion to approve the Department's recommendation was made by Commissioner Broemmer and seconded by Commissioner Dalton.

Upon a roll call the vote was as follows: Commissioner Bly, yes; Commissioner Broemmer, yes; Commissioner Dalton, yes; Commissioner Grant, yes; Commissioner Kenney, yes; Commissioner McCarthy, yes; Commissioner O'Brien, yes; Commissioner Yaffe, yes; Chairman Casey, yes.

The motion passes by a vote of 9 to 0.

- B. **P.Z. 34-95 City of Chesterfield Planning Commission**; a proposal to amend Sections 1003.167 Miscellaneous Regulations; 1003.145 "C-8" Planned Commercial District Regulations; 1003.155 "M-3" Planned Industrial District Regulations; 1003.157 "MXD" Mixed Use Development District Regulations; 1003.181 Conditional Use Permits; 1003.182 Commercial Service Procedures; 1003.187 Planned Environment Unit Procedure; 1003.189 Commercial-Industrial Designed Development Procedure; 1003.191 Landmark and Preservation Area Procedure. (Relative to additions to grading, building, etc. permits in certain districts.)

Commissioner Grant made a motion to hold this item. The motion was seconded by Commissioner Bly and passes by a voice vote of 9 to 0.

- C. **P.Z. 18 & 19-93 Nooning Tree Partnership**; amendment to a Planned Environment Unit (PEU) in the "R-3" 10,000 square foot Residence District; south side of Olive Boulevard, east of the intersection of Appalachian Trail and Olive Boulevard.

Planner II Joe Hanke presented the request and the Department's recommendation for approval of the request based on the conditions outlined in Attachment A.

Commissioner Grant requested that the Department separate issues to be included in its report from issues to be addressed later during site plan review, architectural review, etc.

Councilmember Streeter noted that at the last P & Z Committee meeting, Councilmember Tilley brought up a request that this Commission consider reducing the requirement for a twenty-two (22) foot driveway.

Planner II Joe Hanke noted the Department has had numerous discussions with Councilmember Tilley about that specific requirement, which is a standard requirement for any two-way drive aisle.

Assistant Director Laura Griggs McElhanon noted she informed Councilmember Tilley that she (Councilmember Tilley) has the ability to make that recommendation at the P&Z stage, which means both bills (PC & P&Z) go on to Council. Currently, Attachment A includes a condition which states "widths of interior driveways shall be as approved by the Planning Commission on the Site Development Plan." This is a condition we typically put in all CSP's. The State determines commercial entrance requirements, and the Department strongly recommends we retain that wording and review at the time of Site Plan submittal.

Councilmember Streeter asked the Planning Commission to reduce the twenty-two (22) foot requirement.

Planner II Joe Hanke noted the precedent has been set (to reduce the driveway width), and this drawing was based on the twenty-two (22) foot criteria.

A motion to approve the Department's recommendation was made by Commissioner O'Brien and seconded by Commissioner Bly.

Upon a roll call the vote was as follows: Commissioner Bly, yes; Commissioner Broemmer, yes; Commissioner Dalton, yes; Commissioner Grant, yes; Commissioner Kenney, yes; Commissioner McCarthy, yes; Commissioner O'Brien, yes; Commissioner Yaffe, yes; Chairman Casey, yes.

The motion passes by a vote of 9 to 0.
