Assistant Director Laura Griggs-McElhanon gave a slide presentation of the subject site and surrounding area.

Mr. Michael Cullen and Ms. Nancy Cullen, spoke on behalf of the petition noting the following:

- zoning and uses of subject site and surrounding area;
- proposed use would be a professional office building village, or restricted uses if this is not possible;

- "C-3" District is requested to allow the petitioner flexibility of uses;

Mr. Cullen gave Commissioners a copy of his letter to City Attorney Douglas R. Beach, dated June 2, 1997.

- the petitioner has excluded approximately fifty percent (50%) of the permitted uses under the "C-3" District, and approximately seventy-five percent (75%) of the potential uses under the Conditional Use portion of this section of the code;
- the existing house on the subject parcel would be removed;
- the first structure would be approximately 4,000 square feet, with an attachment of an additional 1,500 square feet for the purpose of housing a "Tea Room" and a high end outdoor shop;
- the Tea Room would be comprised of a shop which would offer the sale of high end home decorations and gardening items, and include an area in which to serve lunch between 11:00 a.m. and 2:00 p.m.;
- seating would consist of approximately fifteen (15) tables;
- an outdoor garden area is proposed, and would include rose gardens, perennial gardens, white lattice with vines, and a few tables;
- the outside business would be early evening, cocktail-type serving of wine and beer;
- a second structure would consist of an upscale hunting and fishing type store;
- additional structures would be developed to create a small village of commercial structures having the appearance of older, small, cute (Victorian) houses, with a lot of plantings;
- the proposed development is similar, in concept, to the professional office park designation discussed during the West Area Study;

COMMENTS/DISCUSSION BY COMMISSION

- There were favorable comments made regarding the type of development proposed.
- The proposed uses could included: Child care centers, nursery schools, and day nurseries; clubs, lodges and meeting rooms; financial institutions; medical and dental offices; parking areas, including garage, for automobiles, but not including any outdoor sales of automobiles, or the storage of wrecked or otherwise damaged and immobilized automotive vehicles for a period in excess of seventy-two (72) hours; recreational facilities, including indoor theaters, but not including drive-in theaters; schools for business professionals, or technical training,

but not including outdoor areas for driving or heavy equipment training; and stores, shops and like facilities. Excluded uses would be: auditoriums and other facilities for public assembly; car washes for automobiles; churches; filling stations for automobiles; libraries and reading rooms; public utility facilities; mortuaries; and police, fire and postal stations. Under Conditional land use, the following would be excluded: amusement parks; apartment dwellings; auditoriums, churches, clubs, lodges, meeting rooms, libraries, reading rooms, theaters, or any other facility for public assembly with capacity for over one-thousand five hundred (1,500) persons; Highway Department garages; hospitals; outdoor swimming pools; public utilities; sewage treatment plant; and vehicle repair facilities for automobiles.

- The petitioner would be responsible for all impact fees.
- The three (3) main areas of concern regarding "C-3" Zoning were addressed by City Attorney Beach as: 1) impact fees; 2) architectural control; and 3) setbacks. In addition, there were some issues regarding proposed/permitted uses. The Commercial Moratorium Panel is reviewing the possibility of placing these same conditions on all commercial, manufacturing and industrial districts.
- The proposed development would meet the existing "C-3" district requirements.
- The exact number of buildings proposed is not known at this time. The "C-3" has a specific formula with regard to the number of structures per square footage allowed.

2. Ms. Shirley Archeski, 305 Quinnmoor Drive, Ballwin, MO 63011, spoke as a neutral party regarding P.Z. 12-97 Kelly Homes, noting concerns that the detention basin is inadequate, and there could be problems with automobile head lights and street lights shining onto residences.
3. Mr. Barry Chelist, 301 Quinnmoor Drive, Ballwin, MO 63011, spoke in favor of P.Z. 12-97 Kelly Homes, noting the following: additional screening along the south and west end of the development; trees planted should have at least a 3" diameter; screening should begin where the buffer zone ends; if gated, plantings should be on both sides of the fence; homeowners association to be formed should be responsible for maintenance of grounds on both sides of the gate, to include the detention basin; and grounds on south and west ends should be equal in appearance as the grounds on the east (facing Baxter) and north end (facing Clayton).

COMMENTS/DISCUSSION BY COMMISSION

- The issues of a gate, fence and landscaping on both sides of the development were discussed.
 - The petitioner met with residents and had indicated they would be responsive to the landscaping suggestions.

 6. Michael Sanders, 315 Quinnmoor Drive, Ballwin, MO 63011, spoke as a neutral party regarding P.Z. 12-97 Kelly Homes, noting he would suggest no grading be done on the site on Saturdays or Sundays, and no two-story buildings be constructed on the south or west side of the proposed development, as all homes on Quinnmoor are single-story structures.
