Commissioner Nolen expressed concern with considering the drainage ditches as part of the green space.

Commissioner Macaluso expressed concern that the petitioner has not reduced their list of permitted uses. Commissioner Macaluso stated that she would like the petitioner to greatly reduce the permitted use list.

Ms. Price stated that requests received from agencies are evaluated and put into Attachment A.

Councilmember Brown suggested sending the permitted use list to the Ordinance Review Committee for review.

Commissioner Macaluso made a motion to hold P.Z. 18-2000 Terra Investments, L.L.C. until agency comments have been received and all issues addressed. The motion was seconded by Commissioner Layton and passes by a voice vote of 6 to 0.

C. Subdivision Regulation Variance – Swingley Ridge Office Building

Director of Planning Teresa Price stated that the ordinance requires the petitioner to put up 16-foot street lights. The petitioner stated that due to the close proximity of the Highway 40 exit, the lights would be blinding to the motorists.

Director of Planning Teresa Price stated that variances to the subdivision regulations may be granted by the Director of Planning. Ms. Price stated that, in this instance, she chose not to grant the variance so the petitioner is appealing to the Commission.

Ms. Price stated that part of the reason for her denial was because it was one of the concerns of the Commission during the Site Development Plan review. The petitioner had sent a letter stating that he would put the lights in.

Ms. Price stated that, in her opinion, if properly installed, the lights would not be a problem.

Ms. Macaluso stated that since lights were not required at the Hampton Inn or Atrium, this is the only area that will be lit up and there could be a problem with the lights for motorists entering and exiting Highway 40.

Chairman Broemmer stated that, if properly installed and positioned, there should not be a problem.

Commissioner Layton made a motion to deny the petitioner's request for a variance for the Swingley Ridge Office Building. The motion was seconded by Commissioner Nolen.

Upon a roll call the vote was as follows: **Commissioner Kodner, yes; Commissioner Layton, yes; Commissioner Macaluso, no; Commissioner Nolen, yes; Commissioner Right, no; Chairman Broemmer, yes;**

The motion to deny passes by a vote of 4 to 2.

- D. P.Z. 14-97 Nancy M. Cullen and Michael P. Cullen (Mulberry Square): request for an extension of time for submitting "PC" Planned Commercial District Site Development Plan; located on the south side of Olive Street Road, east of Raceway Boulevard and west of Aviation Museum Road.

Project Planner John Wagner stated that the petitioner would like an extension of time to submit a Site Development Plan. Mr. Wagner stated that the petitioner is requesting the time extension because utilities have not yet reached the proposed development site and that continuing with development at this time would not be economically feasible for a project of this size. Mr. Wagner stated that the extension of time would be until January 11, 2002.

Commissioner Nolen stated that she hoped that the petitioner would retain the same concept that was previously approved.

Commissioner Layton made a motion to grant the two-year extension of time as requested by the petitioner. The motion was seconded by Commissioner Right.

Upon a roll call the vote was as follows: **Commissioner Layton, yes; Commissioner Macaluso, yes; Commissioner Nolen, yes; Commissioner Right, yes; Commissioner Kodner, yes; Chairman Broemmer, yes;**

The motion passes by a vote of 6 to 0.

Ms. Price stated that numbers have been provided and the model has been set up for the traffic study. Traffic counts have been added. Problems have been found with accuracy in some areas and this is being adjusted.

Commissioner Nolen stated that she wanted the City Council to be aware of her concerns.

Commissioner Layton and Commissioner Macaluso also expressed their concern.

Commissioner Nolen amended her motion that, while the traffic study is being prepared, any intersection affected by a proposed development can not go one (1) level lower than what it is currently at. If currently at a level of 'F,' the Commission must see improvements. The motion died due to a lack of a second.

Commissioner Macaluso suggested sending a memorandum to the City Council stating that the Commission would not be forwarding projects.

Ms. Price recommended that the Commission send a representative to the Planning and Zoning Committee for discussion.

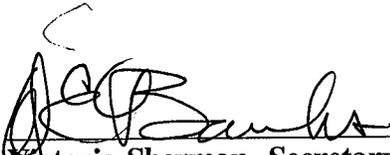

City Attorney Beach agreed and suggested that several members of the Planning Commission attend.
