COMMITTEE REPORTS

Architectural Review Committee

Mr. Duepner presented the report for Chair Mary Domahidy as follows.

The Architectural Review Committee met on June 15, 1990, in the Council Conference Room. The item on the Agenda was review of the architectural elevations for P.Z. 26-89 Midland Capitol Properties II (Chesterfield Crossing development), formerly Lea Oak Plaza, formerly Chic Hardware, formerly Westover. The Committee met with representatives of Midland to

discuss various concerns relative to the elevations. As a result, a summary of that meeting has been provided in the Commission packet. Concerns primarily addressed by Commission Members were:

- o the linear appearance of the building, and the desire to see a break in the building elevations;
- o the type of roofing material that was proposed for the building;
- o the type of building materials to be utilized at the rear of the building;
- o the proposed colors of sign band; and
- o the proposed landscaping and type of shrubbery, particularly along the front elevations of the building.

After discussion among the Committee Members and the petitioner, another meeting was scheduled for a presentation by the petitioner in response to the concerns of the Committee Members. That meeting will be this Friday, June 29, at 3:30 p.m., in the Conference Room A of the Government Center. The petitioner is to respond back in terms of his proposals:

- o to break up the expanse of roofline and add more texture to the roof;
- o to present elevations that were more comparable to those which were depicted to the Planning Commission at the Public Hearing;
- o to submit architectural accents for the various elevations of the buildings; and
- o to provide elevations that exhibit quality and good taste for the development.

Mr. Duepner stated that we have not, to date, heard back from the petitioner, but we will have posted a notice for the meeting this Friday, and we also sent a letter to the petitioner to remind him of the upcoming meeting this Friday.
