- A. P.Z 19-1999 Chesterfield Village:** a request for a change of zoning from “NU” Non-Urban District to “PC” Planned Commercial District for three parcels located on Chesterfield Parkway East, 325 feet east of Elbridge Payne Road and south of Clarkson Road. Total area to be rezoned: 9.096 acres. (Locator numbers 18S210028, 18S210062, and 19S531801)

Proposed uses:

- Offices or office buildings;
- Cafeterias for employees and guests only;
- Parking areas, including garages, for automobiles, but not including any sales of automobiles, or the storage of wrecked or otherwise damaged and immobilized automotive vehicles for a period in excess of seventy-two (72) hours;
- Or other uses which may be sought under the Chesterfield Zoning Ordinance after future public hearings.

Planner I Annessa McCaskill gave a slide presentation of the subject site and surrounding area.

1. Mr. Steve Koslovsky, 231 S. Bemiston, 8th Floor, St. Louis, MO 63105, attorney for petitioner, in favor of P.Z. 19-1999 Chesterfield Village;
 - Site is 9.1 acres on southeast quadrant of intersection of Highway 40 and Olive/Clarkson Road;
 - Subject area is surrounded by C-8 zoning;
 - Petitioner is proposing 3 office buildings on site:
 - Building A – 6-story building, 112,000 sq. ft.; 3 level parking deck – 481 spaces;
 - Building B – 6-story building, 90,000 sq. ft.; 3 level parking deck – 372 spaces;
 - Building C – 4-story building, 92,000 sq. ft.; 2 level parking deck – 367 spaces;
 - Total – 294,500 sq. ft.; parking – 1,220 spaces
 - Percentage of green space:
 - Building A – 31 %
 - Building B – 29 %
 - Building C – 32 %
 - No direct traffic access from development to Chesterfield Parkway;
 - Storm water will be piped off-site to a common proposed detention area on property to the east (which is now vacant and Speaker is not aware of any future development for this property);
 - Buildings already approved on two (2) adjacent properties include: Dierbergs Trust Property (7-stories) and the St. Louis Industrial Tract (8-stories);

- Setbacks for parking garage are 5 feet but are being increased to 20 feet;
- Mr. Jerry Duepner, petitioner's representative, has met with residents of Brandywine Condominiums to discuss concerns and issues which were traffic and building height;
- Speaker feels the rezoning is appropriate and that the proposed office is consistent with the uses (existing and planned);
- Speaker asks Commission for favorable recommendation.

Commissioner Eifler asked how traffic would get south on Clarkson Road from site.

Mr. Koslovsky stated that the only way would be to exit to the Parkway, go under Clarkson Road, then southbound onto Clarkson Road.

Commissioner Eifler asked speaker about plans for the parking garage next to the Parkway.

Mr. Koslovsky stated that there would be a solid landscaped wall along the south line of the Parkway. The upper deck would have 3 feet of wall fence barrier and 7 feet of wall for the lower deck. There would be landscaping in front. Part of the first floor would be below ground. Petitioner would be working with Staff for year-round landscaping in the 20-foot setback.

Commissioner Eifler stated that he would like to see architectural features, in addition to the landscape screening, to enhance the visual appearance of the parking garage by the Parkway.

Mr. Koslovsky stated that the project was going before the Architectural Review Board on July 29th.

Mayor Greenwood stated that the zoning for the 7-story and 8-story buildings was granted by St. Louis County and not the City of Chesterfield.

Mr. Koslovsky stated that the petitioner would like the entrance drive so that it aligns with the cut through between South Outer Road and Clarkson Road.

Commissioner Banks stated that if the petitioner is proposing using the vacant property for the storm water detention, they need to make sure it meets MSD requirements.

Commissioner Broemmer stated that the petitioner should look at what Washington University has done with their parking garages. Commissioner Broemmer stated that he does not favor 6-story office buildings in Chesterfield.

SPEAKERS IN FAVOR – None

SPEAKERS IN OPPOSITION –

1. Mr. John Barrett, 15593 Bedford Forge #13, Chesterfield, MO 63017, resident of Brandywine Condominiums, speaking in opposition of P.Z. 19-1999 Chesterfield Village;
 - Speaker stated that density is one of the concerns of the residents of Brandywine Condominiums. There is still a great deal of property in this area to be developed and, if developed with the same density as this proposal, there will be significant traffic problems;
 - Speaker suggested that the Commission use the guidelines of the Final Report of the Traffic Issues Advisory Panel, dated August 1997, for future developments to reduce the traffic in the area;
 - Speaker stated that the storm water drainage would be significant;
 - Speaker is concerned about the landscaping, noise and air pollution.

SPEAKERS – NEUTRAL – None

REBUTTAL –

Mr. Koslovsky stated that he had addressed Mr. Barrett's issues in his presentation. Mr. Koslovsky stated that the petitioner would discuss the landscaping with the Architectural Review Board.

Commissioner Broemmer stated that the height of the building is directly proportional to the density of the traffic so this is a good reason to reduce the building height.

Commission Nations read the closing portion of the "Opening Comments."

Commissioner Nolen expressed concern with the internal circulation. Commissioner Nolen showed a picture of the Mr. Goodcents on Manchester Road and expressed concern with the window signage.

Commissioner Macaluso asked Staff to compare the Landscape Plans delivered to the meeting with the current landscape plan and what plantings would be required now.

Director of Planning Price stated that in the section for "Real Estate" signs, an issue on the proposed amendment is that further definition is needed of a "For Lease" sign in regards to sign, location and length of time sign may be up. The issue would be if the Commission wants them more restrictive. Director of Planning Price stated that the other issue is whether the Commission wants to limit the number of signs that can be utilized by this proposed section.

Councilmember Brown feels that a 32 square foot sign is too large for real estate signs. Councilmember Brown stated that some signs never come down when a shopping center is 100% leased.

Director of Planning Price stated that a possibility is having "For Lease" signs in another category under "Real Estate" signs and have the category more stringent.

Commissioner Eifler stated that he would like Staff to address that significance and, if necessary, get legal opinion.

Chairman Layton stated that in their letter of July 22, 1999, MoDOT expressed serious concerns about the traffic situation and also stated they will be working with the developer's traffic consultant (Crawford Bunte Brammeier) to resolve the concerns and to further evaluate the feasibility of installing a round about or signalize this location.
