Mr. King noted chain link fencing is proposed, but the petitioner is not opposed to sight-proof fencing to the rear and sides of the property where it would be appropriate, if required by the Commission or Council. He stated that the petitioner would be opposed to a sight-proof fence across the front, because of the outdoor display of equipment.

Commissioner Dalton inquired about the type of construction materials.

Mr. Lee Feaster, Wind Engineering, noted the building construction is preliminary; however, the front will be either a brick or some kind of concrete block, and the service area would be some form of steel-type structure.
