Ms. McCaskill stated that the petitioner has requested to amend this ordinance amendment as it relates to Lowe's only and not Wal-Mart. Senior Planner Annissa McCaskill gave a power point presentation showing the subject site and surrounding area.

1. Mr. John Wagner, 17107 Chesterfield Airport Road, Chesterfield, MO 63005, representing petitioner for **P.Z. 24-2003 THF Chesterfield Development LLC (The Commons)**, stated the following:

- The request is to have the following in Attachment A amended, 'no retail sales, storage or displays are permitted outside the enclosed buildings.'
- Sales items would be placed on eight (8) tables, approximately 20 feet by 40 feet and approximately 3,200 total square feet;
- Items to be sold would be limited to small trees, annuals and perennials;
- Four (4) parking spaces would be lost.

COMMENT/DISCUSSION

Commissioner Macaluso asked if Lowe's could lose the four (4) parking spaces and still be in conformance.

Mr. Wagner stated that if this ordinance amendment is approved, fertilizer and peat moss that used to be stacked outside on the parking lot would be removed. Mr. Wagner stated that barbeque grills and lawnmowers would be stored elsewhere and the loading area would be removed.

City Attorney Doug Beach asked what has changed for the petitioner to now request the ordinance amendment for outdoor sales.

Mr. Wagner stated that Lowe's had constant violations against them from March 1 to October 1 for previous outdoor sales and now Lowe's wants to be in conformance.

Mr. Beach asked how the City would be assured that Lowe's would abide by the law if this ordinance amendment is approved.

Commissioner Broemmer asked where the rental trucks would be located.

Commissioner O'Connor expressed concern with the length of time requested for outdoor sales.

P.Z. 32-2003 Greater Missouri Builders (Chesterfield Crossing):** A request for a rezoning from “NU” Non-Urban District to “R-3” 10,000 square foot Residence District for 7.8 acre tract of land located on the north side of Olive Boulevard, east of Spyglass Summit Drive. (Locator Numbers 16R33-0453, 16R32-0232, 16R32-0195, 16R32-0130, 16R32-0938, 16R31-0837).

- C. P.Z. 33-2003 Greater Missouri Builders (Chesterfield Crossing):** a request for a Planned Environment Unit (PEU) Procedure in the “R-3” 10,000 square foot Residence District for a 7.8 acre tract of land located on the north side of Olive Boulevard, east of Spyglass Summit Drive. (Locator Numbers 16R33-0453, 16R32-0232, 16R32-0195, 16R32-0130, 16R32-0938, 16R31-0837).

Project Planner Christine Smith Ross gave a power point presentation showing the subject site and surrounding area.

1. Mr. Ron Nelson, 1551 Wall Street, St. Charles, MO 63307, petitioner and speaking in favor of **P.Z. 32-2003 Greater Missouri Builders (Chesterfield Crossing)** and **P.Z. 33-2003 Greater Missouri Builders (Chesterfield Crossing)**, stated the following:
 - Proposed development would be called Chesterfield Crossings;
 - Proposed site is east of the Mansions at Spyglass Summit Subdivision;
 - Proposed site is under contact;
 - Proposed site is 7.8 acres;
 - Proposal would be a 28-unit villa project.

2. Mr. Jason Combs, 1910 Pine Street, Suite 400, St. Louis, MO 63103, engineer for and speaking in favor of **P.Z. 32-2003 Greater Missouri Builders (Chesterfield Crossing)** and **P.Z. 33-2003 Greater Missouri Builders (Chesterfield Crossing)**, stated the following:
 - There will be one (1) access off Olive Boulevard and a stub street for future expansion;
 - Currently the site drains to a detention basin and will continue to do so, however, with the proposed development, it will be handled through a storm sewer and taken to the detention basin and released at an allowable rate that is required by the City;
 - There will be approximately 109 feet between buildings for Mansions at Spyglass Summit and Chesterfield Crossings;
 - There will be approximately 30 feet of elevation between the first floor of Mansions at Spyglass Summit and Chesterfield Crossings.

3. Ms. Scott Campbell, Greater Missouri Builders, 200 North Forsyth, St. Louis, MO 63105, petitioner and speaking in favor of **P.Z. 32-2003 Greater Missouri Builders (Chesterfield Crossing)** and **P.Z. 33-2003 Greater Missouri Builders (Chesterfield Crossing)**, stated the following:

- Speaker stated that this proposal would not have an impact on the Parkway School District because these units would be purchased mostly by empty nesters;
- There currently are five (5) homes on the site that have driveways on Olive Boulevard and which will be eliminated;
- Knollwood Drive is a private drive on the east of the proposed development that will remain. The distance between this curb cut and the curb cut for the proposed development would be approximately 70 feet;
- The detention basin was designed only for Mansions at Spyglass Summit Subdivision but the developer will reconfigure (making larger and deeper) the basin and give it a greater volume to maintain what is needed with regards to holding stormwater back and releasing it at an allowable rate;
- The slope will be 3:1;
- Four (4) of the proposed units will be on land that now contains the detention basin. The detention basin will be moved back and made deeper (10 feet);
- Some trees would be removed from the western end of the site and around the current detention basin.

COMMENT/DISCUSSION

Commissioner Wardlaw asked how the petitioner would keep the detention basin from filling with dirt due to the deep cut in grade by the front cul-de-sac and a high fill on the backside.

City Attorney Beach asked who owns the detention basin if it is used by Mansions at Spyglass Summit Subdivision.

Mr. Campbell stated that it currently is owned by Gundaker Commercial Development but will be owned by Greater Missouri Builders. Mr. Campbell stated that there is an easement between the two (2) developments.

City Attorney Beach asked if the residents of Mansions at Spyglass Summit Subdivision have agreed to the use of their detention basin. City Attorney Beach stated that he wants to see a cross section that shows what Greater Missouri Builders will do to hide the rooftops of the proposed development from the homes at Mansions at Spyglass Summit Subdivision.

City Attorney Beach asked what the value of the homes on the proposed site would be and if they are the same homes that are being built at Chesterfield Pointe on Olive Boulevard.

Mr. Nelson stated that Greater Missouri Builders have not yet priced the homes nor attempted marketing them but the intent is that the homes would be similar in architecture and floor plan.

SPEAKERS IN FAVOR – None

SPEAKERS IN OPPOSITION -

1. Ms. Dolly Schultz, 14360 Spyglass Ridge, Chesterfield, MO 63017, speaking in opposition to **P.Z. 32-2003 Greater Missouri Builders (Chesterfield Crossing)** and **P.Z. 33-2003 Greater Missouri Builders (Chesterfield Crossing)**, stated the following:

 - Petitioner does not have the authority to connect, reconfigure, modify or use the detention basin without the consent of the Mansions at Spyglass Summit Subdivision;

 - Petitioner has included the detention basin as part of their calculations for green space ratio.

3. Ms. Barbara Pellet, 14320 Spyglass Ridge, Chesterfield, MO 63017, speaking in opposition to **P.Z. 32-2003 Greater Missouri Builders (Chesterfield Crossing)** and **P.Z. 33-2003 Greater Missouri Builders (Chesterfield Crossing)**, stated the following:

- 54% of the trees will be removed;

City Attorney Beach stated that the City has a requirement that a detention basin is to be measured before construction begins and then measured after and the developer is required to replace detention to where it was at the beginning of construction.

4. Ms. Sharon Davisson, 14312 Spyglass Ridge, Chesterfield, MO 63017, President of the Board of Directors for the Mansions at Spyglass Summit Homeowners' Association, speaking in opposition to **P.Z. 32-2003 Greater Missouri Builders (Chesterfield Crossing)** and **P.Z. 33-2003 Greater Missouri Builders (Chesterfield Crossing)**, stated the following:

- Proposed development would be too dense;
- Detention basin is included in the green space calculation;
- Proposed development is not compatible with Mansions at Spyglass Summit Subdivision development;
- 'R-2' zoning would be more appropriate for the proposed site;
- Property values for Mansions at Spyglass Summit Subdivision will decrease.

REBUTTAL:

Mr. Nelson stated the following: The density is similar to Mansions at Spyglass Summit Subdivision, the tree line along the western edge of the proposed development and the eastern edge of Mansions at Spyglass Summit Subdivision will remain intact as much as possible, work is on-going concerning ownership of the detention basin, developer will comply with the City's erosion standards, developer will comply with the City's tree replacement policy, and developer has met with residents of the Mansions at Spyglass Summit Subdivision.

Ms. Smith Ross stated that the following issues will be reviewed and addressed:

- Distance between Knollwood and the proposed curb cut;
- Any future expansion proposed;
- Detention basin – is the property included in the green space calculation, control of the slope towards the basin, and design of the detention basin;
- Trees;

- Ownership and use of the detention basin lot;
- Cross section showing the rooftops of the entire proposed development and not just the edge;
- Price and design of proposed homes as compared to Chesterfield Pointe;
- Elevations of the homes on Olive Boulevard as opposed to the planned elevations;
- Density and the concerns of the residents and their lawyer;
- Erosion control;
- Noise control;
- Siltation control;
- Consistency of the proposed zoning with the adjacent developments;
- Grading and the building setback from the Mansions at Spyglass Summit Subdivision property line and how close grading would be;
- Request for a tree overlay;
- List the common names of the trees;
- The possibility of two (2) attached homes instead of three (3) and four (4) per building;
- Calculations by Staff: Green space ratio only on the front residential section (approximately 3 acres) and how many homes could be built on this site without a Planned Environment Unit (PEU) Procedure;
- How the northeast side of Mansions at Spyglass Summit Subdivision could be buffered?
- Ownership of the detention basin-legal description and title search. If the petitioner does not own the detention basin, he will not be entitled to use it in the green space calculations;
- Pictures taken from the three (3) units at Mansions at Spyglass Summit Subdivision that look over the proposed development;
- Sanitary sewer going into a lift station?
- Definition of attached homes;
- Quality of the proposed homes since they may cost as much as the homes in the Spyglass Subdivision in today's market;
