Councilmember Cullen addressed the Committee relative to the proposal for a Public Works building in Chesterfield Valley. Subsequently several Councilmembers have concern whether the City should follow the procedure required of others. Councilmember Levinson noted that the matter came from the Public Works/Parks Committee to the Council on Tuesday in view of an emergency situation. Councilmember Flaschbart noted that he was not at the meeting but believed that if anyone else has to follow a procedure then the City should have to follow that procedure as well. Councilmember Cullen noted that the major issue at the present time is for the maintenance of City vehicles and that the City is in compliance with applicable ordinances. Chairman Hurt inquired whether the appropriate process could be pursued and not pose an undue hardship. Chairman Hurt directed that the matter be presented to the City Council at its meeting on Tuesday, January 17th, and the issues to be considered are the hardship, what is the standard process and the type of building proposed. Councilmember Tilley expressed concerns about the quality of the proposed building. Chairman Hurt requested that if special meetings needed, they be held by the Planning Commission to provide for the appropriate process. Motion was made by Chairman Hurt to place the issue on the Council work session Tuesday, determine if the Planning Commission could hold special meetings, and the issue of the hardship.
