Director Daepler summarized the City Ordinance relative to political signs contained in the Zoning Ordinance of the City of Chesterfield, and Ordinance No. 405.

There was discussion relative to the Political Sign Regulations. The Committee suggested that a review of the sign provisions of the Zoning Ordinance also consider political signs.

The Committee directed staff to contact other cities relative to their requirements for the time prior to an election at which signs may be erected, and to report back to the Committee on this item.

(At this time Councilmember Hurt arrived.)

ITEM #6 Resolution of the Chesterfield Fire Protection District.

Director Daepler summarized the Resolution of the Chesterfield Fire Protection District, and concerns raised relative to this Resolution by the Department of Planning/Economic Development.

Dave Nichols, of the Chesterfield Fire District, responded on behalf of the Fire District. He noted that only areas where no public water was available would be affected by the Resolution. The concern of the Fire District is the need for access of apparatus. Mr. Nichols also cited that within the Resolution that if a sprinkler system was provided in a structure, the additional setback requirements and access provisions would not apply.

Mayor Leonard inquired about the use of smaller vehicles with chemicals to fight fires in more rural areas.

Chief Biele noted that Fire Districts in areas where this has been tried had indicated that it had proven to be very effective. He also noted that the size of some structures in the western portions of the City are quite large, and requiring large apparatus to respond to a fire.

Mr. Nichols noted that this was not an attempt by the Fire District to revise Zoning or Subdivision Regulations of the City, but to address the Building Code. It is the intent of the Fire District to include items cited in the Resolution as an amendment to the revised Building Code that would be adopted at a later date by the Fire District. It was the opinion of the Fire District Board that they needed to address this issue at the present time, thus the Resolution.

Councilmember Hurt raised a question of whether this issue would become moot at some time in the future if the Non-Urban District is phased out.

Director Daepler noted that the Non-Urban District may not necessarily be phased out, and that as a result of the Comprehensive Plan there will be consideration of a District with lot sizes between three (3) and one (1) acre.

Director Daepler noted that concerns raised by the City focused upon confusion which could be created by requirements of the Fire District, and those of the City of Chesterfield. In addition, the City Attorney had expressed the opinion that the Fire District's Regulations could not supersede those of the City of Chesterfield.

Councilmember Hurt requested that the staff discuss this matter of the legal responsibility, and to respond back to the Committee on the matter.

Representatives of the Fire District noted that this matter would not again be discussed by the Fire District until their meeting of June 18, 1990.
