A question was also raised whether residents of the area were aware of the proposed change.

Councilmember Greenwood noted that she would discuss this matter with residents prior to the City Council meeting of July 19th.

A motion was made by Councilmember Greenwood for approval of the Planning Commission recommendation. The motion was seconded by Councilmember Hurt and approved by a vote of 3 to 0.

Note: A bill relative to this matter will be needed for the July 19, 1993 City Council meeting.

Director Duepner summarized the correspondence from the City Attorney.

There was discussion relative to the origination of this response by the City Attorney.

Director Duepner noted that it had been requested on behalf of the Planning Commission as part of its review of the sign regulations.

The Committee received and filed the correspondence from the City Attorney and noted that the information should be shared with the consultant selected for the revision of the Zoning and Subdivision Regulations.

Director Duepner presented a St. Louis County Planning Commission Notice of Public Hearing for P.C. 90-93 Bridle Development Company. The property in question is located at the northeast quadrant of the intersection of Olive Boulevard and Fee Fee Road, just east of the current City Limits.

There was discussion about the petition. It was noted that the proposal was for two (2) restaurants on the property, a sit-down and fast-food.

Councilmember Greenwood expressed concern relative to the intensity of the proposed development. **The Committee received and filed the public notice.**

ADD ON #1 Letter from the City Administrator of the City of Ballwin concerning possible annexation by the City of Ballwin.

Director Duepner noted that the letter from Mr. Robert Kuntz was sent in response to an inquiry from City Administrator Michael G. Herring, concerning interest in annexation by the City of Ballwin.

The Committee directed that this correspondence be **received and filed**, and **referred** to the entire Council to be discussed at an upcoming Strategic Planning Session.

ITEM I. **P.Z. 2-93 Greater Missouri Builders, Inc. (Braefield, formerly Chesterfield Gardens)**; Planned Environment Unit Procedure (PEU) in "R-4" Residence District Site Development Plan, Architectural Elevations and Landscape Plan; Olive Boulevard between East and West Drive.

Senior Planner Laura Griggs-McElhanon presented the action of the Planning Commission on this matter.

There was discussion by the Committee relative to access to the development, location of two-story units within the development, full access at Olive Boulevard, and the multiple number of drives proposed within the development.

Ken Ingram, the consultant for the petitioner, addressed the multiple drives proposed within the development, noting that streets would have rolled curbs and garages are to be located on the high side of a lot.

Mr. Rick Kolaz addressed the Committee relative to concerns about landscaping and location of Units 54 and 55. He also expressed concern about preservation of the undisturbed area in the northeastern-most portion of the development.

Director Duepner noted that the plan submitted, if approved, indicates an undisturbed area, and any proposed changes would require the plan to be resubmitted to the Planning Commission and the Planning and Zoning Committee for review and action.

There was discussion relative to handling of stormwater and detention on the site.

Councilmember Hurt noted concern about whether detention capacity was of sufficient size to handle runoff. It was directed that this concern be pointed out to the Public Works Department and the issue of detention should be addressed **now**.

Director Duepner noted that preliminary approval of handling of stormwater had been given by the Department of Public Works, otherwise the plan would not have been submitted to the Planning Commission.

Chairman Clarke inquired whether anything could be done relative to relocating Units 54 and 55 to minimize the visibility from adjacent properties.

Mr. Ingram noted that nothing could be done short of eliminating the units. The project is now down to ninety-one (91) units, from the approved maximum of ninety-four (94) units.

A motion was made by Councilmember Hurt and seconded by Councilmember Greenwood that the Site Plan, Architectural Elevations and Landscape Plan be approved per the recommendation of the Planning Commission, with conditions that an enviro fence be provided along the northern edge of the undisturbed area, and that the Public Works give concurrence on the plans for detention. **The motion was approved by a vote of 3 to 0.**
