Director of Planning Teresa Price stated that Staff had met with the petitioner for P.Z. 43-1999 SSM Health Care Central Region today on a new plan that shows lower building height, a larger footprint and less green space.

Assistant Director of Planning Laura Griggs-McElhanon gave an overview of this petition.

Councilmember Brown stated that she had issues concerning the northbound lane on the Parkway and the traffic light.

Discussion followed.

Councilmember Nations expressed concern that this plan was approved by the Planning Commission, held at the request of the petitioner at Planning and Zoning Committee and now a revised plan has been submitted to the Committee.

Councilmember Flachsbart expressed concern that the public saw one plan at Planning Commission and made their comments but now a revised plan is submitted to Committee. Councilmember Flachsbart stated that perhaps this should be sent back to Planning Commission.

Chair Hurt stated that this site is zoned for something much denser than what is being presented. Chair Hurt stated that there also is a time constraint with the Certificate of Need. Chair Hurt suggested that if a Public Hearing would be required, that it be done at the Committee level.

Ms. Price suggested having Staff review the revised plan and give the choice to the Committee whether to forward to Council, hold a Public Hearing at the Committee level or return it to the Planning Commission.

Mr. Mike Doster, attorney for the petitioner, gave a review of the changes which included lowering the 4-story buildings to 3-stories, density has been moved farther to the north and two (2) access points have been eliminated.

Mr. Doster stated that it is his understanding that Volz Engineering would be submitting a marked up Attachment A to the Department shortly showing the distances that need to be changed. Mr. Doster stated that it would be submitted within the next few days.

Mr. Todd Scheibe, engineer for this petition, discussed retention and detention and stated that he will get information to Staff showing new setbacks.

Ms. Price gave an overview of this petition. Ms. Price noted the Planning Commission changes with regard to front yard setbacks and the elimination of cross access to the north.

Councilmember Nations stated that the petitioner stated at a meeting that he would consider lowering the building height from 5 stories to 4 stories and enlarging the footprint for P.Z. 14-2000 One Chesterfield Place.

Mr. Al Vitt, petitioner, stated that he had looked into lowering the building and met with residents.

Ms. Price gave an overview of these petitions. The Planning Commission had asked City Attorney Doug Beach to review three (3) items requesting a change. Ms. Price stated that Mr. Beach did not have any problems with the language for the items that he reviewed.

Ms. Price stated that the Planning Commission voted to eliminate the 8-foot shoulders on Conway Road. She informed the Committee that the County stated that no access would be granted onto Conway Road unless shoulders were built.

Councilmember Nations questioned how the County could deny access to Conway Road because the parcel then would be landlocked.

Chair Hurt stated that the shoulders would be a safety feature.

Ms. Price stated that it was discussed in Planning Commission whether to restrict access to the south. The Planning Commission did not approve that amendment. Currently, cross access may be allowed to the south as directed by the City of Chesterfield.

General discussion followed.

Councilmember Brown made a motion to add the changes approved by City Attorney Beach to the ordinance. The motion was seconded by Chair Hurt and passes by a vote of 3 to 0.

The motion dies due to a lack of a second.
