Item #6 Correspondence from the Director of Planning/Economic Development regarding the Review Process of the City of Chesterfield Planning Commission, and Liaison to the Planning and Economic Development Committee.

Director Duepner provided an overview of the amended review procedure of the Planning Commission which would allow response on recommended conditions by the petitioner and other interested parties.

Planning Commissioner Domahidy also addressed the Committee on the process, noting that the first petition for which this process was utilized was P.Z. 13-900 Maurice L. Hirsch, Jr.

Director Duepner cited the concern of the Planning Commission relative to utilization of the revised process in the review of ordinance amendments. It was noted that an ordinance amendment is reviewed by the Planning Commission in response to a request submitted by the petitioner, and there is no public hearing notice on these matters.

It was the opinion of the Committee that these additional two (2) week process should not be applied to ordinance amendment requests, as it was the opinion of the Committee that this would be over-management. The Committee noted that if the ordinance amendment request was a matter of substantial concern, it would be the subject of a public hearing before the Planning Commission.

While the Committee was in agreement that any request for condition revision not addressed by the Planning Commission should be referred back to the Commission for response, it was their desire to handle these matters on a case-by-case basis. The Committee believes that it would be the role of the Department to suggest to the Committee that items be referred back to the Planning Commission for review and comment.
