Conditions may warrant the treatment of additional streets, or fewer streets, depending upon many factors, including forecasted temperature and precipitation type. The existence of this list shall not restrict the Public Works Staff from treating additional streets, or fewer streets, as appropriate. For example, in certain conditions it may only be necessary to treat bridges. In other cases it may be necessary to pre-treat all primary streets.

Should it become necessary to permanently add streets to this list, the Public Works Director is authorized to do so, with notification to the City Administrator and City Council.
