

TREEED Partners

Team for Regional Excellence in Energy & Environmental Design

The **TREEED** Partners (**T**eam for **R**egional **E**xcellence in **E**nergy and **E**nvironmental **D**esign), each honored and distinguished in their own fields, demonstrate to our region sustainability actions obvious in their professional work:

CREATING:

- Composting facilities where there were none
- Buildings utilizing sustainable building practices and products
- Alternative energy sourcing and energy efficiencies where there were none in and for buildings and in our region
- Butterfly-pollinator garden areas
- Useable, new products from recycled materials

EDUCATING:

- About sustainable energy efforts and alternative energy sourcing, some utilized on corporate premises
- About sustainable conservation policies, practices and procedures
- About prairie and habitat restoration

These honorees' actions lead us to a healthier, more sustainable future.

What is a TREEED Partner:

Diverse regional and state conservation partners working together to provide educational information to citizens in the region with a goal of increasing sustainability and improving health. Established in 2005.

Current TREEED Partners:

Dale Behnen
