SEAT BELT

Do not move to this stage until the child fits the adult seat belt properly, typically when 4' 9" in height

- *Age is important* The younger children are, the more fragile they are, and the more protection they need.
- *Know the limits!* ALWAYS follow the weight and height limits of the car seat.
- *Fits your vehicle* Not every car seat can be installed correctly in every car, try before you buy.

- *Easy for you to use* Try out the features of the car seat, choose one that will make it easy for you to use correctly every time.
- *Maturity matters* A booster is designed for children mature enough and big enough to sit still in the proper position for the whole ride.
